

## **CHURCH PLANTING PARTNERSHIP NETWORK**

Paul Kim, D. Min.

Asian American Relations Consultant

Executive Committee, SBC

1. Purpose -Partnership in church planting gives strength each other to achieve the goal together in a team spirit. It is the biblical principle where two or three gather together, then there comes strength. It is a far more effective approach in church planting in partnership of likeness-mind churches for the Great Commission.
2. Vision Statement - To develop church planting partnership among SBC churches
3. Mission Statement - We take the biblical principle of partnership in church planting in the team approach.
4. Requirements- Each church agrees to cooperate in team approach in church planting through partnership with resources and homegrown workers.
5. Network - To exchange info among partnering churches to achieve the goal in CPM (church planting movement)
6. Partnership churches - It begins as the grassroots from one city to branch out further to other cities to multiply churches across the country.
